HOLISTIC APPROACH TO MISSION-READY PERFORMANCE

HUMAN PERFORMANCE OPTIMIZATION

LMR enhances warfighter readiness through integrated human performance programs encompassing strength and conditioning, cognitive resilience, and musculoskeletal injury prevention. Our solutions accelerate recovery, sustain peak operational output, and extend the mission effectiveness of elite forces across joint and special operations units.

TACTICAL AND HIGH-RISK TRAINING

We design and deliver immersive, consequence-driven training that enhances survivability and lethality. Our subject matter experts conduct scenario-based instruction in weapons proficiency, operational planning, and high-consequence mission sets, ensuring teams are fully prepared for contested, multi-domain operations.

CYBERSECURITY, IT, AND DATA ANALYTICS

LMR secures the digital battlespace through advanced cybersecurity operations, resilient IT architecture, and actionable analytics. Our services ensure secure, uninterrupted access to mission systems and decision-quality data, empowering commanders to gain and sustain information superiority.

INTEGRATED LOGISTICS AND SUSTAINMENT

LMR delivers end-to-end logistics and sustainment solutions—including asset visibility, maintenance, and supply chain optimization—that ensure uninterrupted operational tempo and material readiness across dispersed environments.

PROGRAM MANAGEMENT AND MISSION SUPPORT

LMR applies proven program management frameworks rooted in PMI and DoD best practices to manage complex, high-stakes initiatives. We deliver synchronized execution, fiscal discipline, and agile responsiveness—enabling clients to achieve mission success under demanding conditions.

MEDICAL STAFFING AND SOLUTIONS

LMR deploys cleared, credentialed medical professionals to support force health protection, clinical readiness, and contingency medical operations. Our services ensure agile, high-quality care in dynamic and often austere environments—protecting the health of deployed forces worldwide.

CONTRACT VEHICLES

LMR Technical Group provides federal agencies with streamlined, mission-critical support through a diverse range of prime contract vehicles. These vehicles offer rapid, flexible, and scalable contracting solutions, enabling agencies to quickly access LMR's expertise across high-risk training, human performance optimization, cybersecurity, logistics, and program management. Our prime vehicles include:

GSA MULTIPLE AWARD SCHEDULE

Flexible contracting for management consulting, logistics, IT, and mission support services, allowing rapid task order execution.

ACC HPO IDIQ

Specialized human performance optimization and training solutions to enhance warfighter readiness, resilience, and recovery.

SEAPORT NXG

Engineering, technical, and program support for the U.S. Navy and Marine Corps, ensuring fleet readiness and sustainment.

NGA ESAS II

Classified & unclassified administrative, operational, and technical support for the National Geospatial-Intelligence Agency's critical mission needs.

OASIS+ SB (SPARTAN DEFENSE GROUP JV)

Comprehensive professional services through flexible, small business-focused contract vehicle.

PROUD TO SERVE

LMR has successfully executed 25+ federal and defense contracts, demonstrating a consistent track record of delivering results in high-stakes, mission-critical environments.

National Institutes of Health

PROVEN LEADERSHIP AND DEEP EXPERTISE LMR's leadership team brings over 180 years of combined experience in senior military, federal civilian, and contractor roles. This deep operational insight, combined with financial acumen and technical rigor, enables LMR to anticipate requirements, mitigate risk, and exceed mission expectations.

GLOBAL REACH AND OPERATIONAL SCALE With operations across 35+ CONUS and OCONUS locations, LMR supports over 200,000 personnel worldwide. This extensive reach allows for rapid, scalable deployment in support of global defense missions, ensuring our clients have the resources they need, where and when they need them.

ELITE, CLEARED WORKFORCE LMR maintains a highly qualified team of over 200 cleared professionals, including personnel with Top Secret clearances, ensuring our ability to support sensitive and mission-critical operations. This clearance level allows LMR to work seamlessly within the highest security environments.

PROVEN PAST PERFORMANCE LMR has successfully executed 25+ federal and defense contracts, demonstrating a consistent track record of delivering results in high-stakes, mission-critical environments across many federal agencies.

FINANCIAL INTEGRITY AND COMPLIANCE With a DCAA-audited and approved accounting system, LMR provides clients with financial transparency, audit readiness, and fiscal discipline. This compliance ensures accurate cost tracking and financial management, reducing risk and providing peace of mind for our clients.

MISSION-DRIVEN INNOVATION: LMR is built on a foundation of relentless innovation, elite talent, and operational excellence. Our tailored solutions empower clients to overcome complex operational challenges, foster resilience, and sustain readiness in dynamic environments, ensuring mission success.
